P – Pollen Filter: The standard filter designed to capture larger particles including pollen, dust, and other allergens.

EE – Electrostatic Filter: While it functions like a Pollen Filter, it also holds a static charge that captures smaller particles such as asbestos and tire dust.

CH – Premium Charcoal Filter: Features a 2 layer filtering structure that helps it to capture particles and removes odor.

M - Mesh Type: The mesh filter is a wire screen that is designed to capture large particles from entering the A/C system. It can be cleaned and re-used per the vehicle specific repair/owner's manual instructions.
