

2025-2026 UPDATES

BRAKE PADS

- Friction materials in Toyota brake pads are designed specifically for the dynamics of the Toyota braking system. Other pads may compromise the braking system performance, leading to accelerated rotor wear, excessive noise, vibration and pulsation.
- Backing plates on Genuine Toyota Brake Pads are precision-machined to allow the brake pads to move freely within the calipers for smooth efficient operation.
- Only Genuine Toyota Brake Pads are designed by Toyota and built specifically for your vehicle according to Toyota specifications and tolerances.

Based on 2024 Toyota FMPC Update 2
